## 首先要在AS中配置上传插件: 在Project的build.gradle的 dependencies{ 里 添加这个插件

classpath 'com.novoda:bintray-release:0.3.4'

```
Android

An
```

如果没有配置则会报: 以下错误

Error:(2, 0) Plugin with id 'com.novoda.bintray-release' not found.

```
Plugin with id 'com.novoda.bintray-release' not found.
Open File
```

## 配置上传项目的账号地址等信息: 在项目的 build.gradle里添加 publish块

```
Android
                              □ CustomProgressBar
                                                     apply plugin: 'com.android.library'
                                                     apply plugin: 'com.novoda.bintray-release'
 □ app
